## Report on Good Touch bad touch Awareness For Students with samskar Toy

- Vaagdevi Engineering College conducted an awareness programme on “**Good Touch bad touch Awareness For Students with Samskar Toy**” for all students on 29<sup>th</sup> September 2021 at Zilla parishad Primary School, Wanaparthi, Warangal.
- Total number of participants :72
- Child abuse is a major issue which can have drastic and lifelong repercussion. Almost every other day we hear stories about a child being touched inappropriately. A large number of children subjected to this are below six years of age. The prime objective of this project is to educate children about difference between Good and Bad touch in Government schools, Playground, Tuition centers and even door-to-door.
- The toy is fitted with sensors that when touched upon educates the children on whether the said touch is good touch or a bad touch by making noise. It talks both in English and Telugu and makes a sound when anyone touches private parts. While theoretically children are taught this concept not many can grasp the issue.
- According to Ganesh and Bharadwaj ECE students of Vaagdevi Engineering college, This toy is well-suited to provide education to children in the age group of 3-12 years and they are already getting orders from government schools, private educational institutions, the Telangana government, and also from international markets like Poland.
- The Coordinator of this programme was **Mrs. K. Naveena**, Assistant professor of ECE department. She organized the programme and concluded the programme by conveying thanks to the School principal.
